- 1.
- 2.
- 3.

What are some **response prompts** (prompts targeting student responses) you can use with students?

- 1.
- 2.
- 3.

What are your plans for **collecting data** and using data to inform future trials?

- 1.
- 2.
- 3.

Questions:

Write **goals**: Choose one to two goals and how you will utilize systematic instruction moving forward.

1. I will

I will monitor by: _____

2. I will

I will monitor by: _____

AFTER doing the module, how confident are you in your ability?

1	2	3	4	5
Not at all!	Not very	Just ok	Sort of ok	Excellent!

Reflections: After completing the module and collecting data on goals for one week or more, please reflect on this process. Here are some suggested reflection topics.

- Outline what was or wasn't helpful within modules
 - Talk about any areas where you want more support
 - Describe the process of implementing new strategies learned in this module
 - Explain any barriers or facilitators
-
